

St Patricks Parish School

## School Council Strategic Framework

### Vision

The vision of St Patrick's Parish School is to be a community, which bears witness to Gospel values and celebrates our Faith traditions. It will be committed to the development of the whole child—a child who is principled.

### School Council 4 Pillar Strategic Framework

#### St Patricks Parish School Council is committed to:

**Social** – bringing the school community together with a variety of social events.

**Communications** – ensuring Council communicates with the school community regularly via newsletter, email and website.

**Community** – bringing the school community together and giving back to the community.

**Financial** – providing learning resources as a priority, fundraising throughout the school year and promoting the school to maintain enrolments.

The Strategic Framework that has been adopted provides the framework and guidance for the School Council to set action items for the ensuing year.
